	Participants are students at primary school 'Nevena Georgieva -Dunja'' from Skopje, North Macedonia. They are 11 – 14 years old and it is a mixed group of students from 6 th to 9 th grade. All students have been learning English language from first grade, so they can communicate with peers and work in mixed groups. They also learn French as a second language from 6th grade. Different backgrounds are related to economical and social status of their families, but students easily adjust to new learning environments. The students need to improve soft skills competences, engage more in learning through different approaches, get acquainted with green ecology agenda in Slovenia since it is one of the greenest country in the world and gain experience in working among peers in a multicultural classroom. Diversity and inclusion of all students mean learning new skills and techniques of communication and taking care of our well-being through indoor and outdoor activities by practising mindfulness.
